

Apps

With the purchase of this module, sports-specific apps are available to take advantage of the wireless transmission of weight.

For Wrestling - Befour has partnered with LevelChanger. Visit www.levelchanger.com for details on app and to download their free Takedown Scoring and Stats app (Apple iOS iPad only).

For Other Team Sports - You are eligible to download Befour's Sports Weight Tracker app for Android or Apple devices. Your Android device must be running Jelly Bean (4.3) or higher. Your Apple device must be running on iOS 9.0 or higher. To download, go to the Google Play Store on your Android device or the Apple Store on your iOS/Apple device, and search for 'Sports Weight Tracker' under the apps section. Download the app. In the sign-up screen, you will be required to enter a unique signup code (in addition to your name, password, etc.). Sports Weight Tracker subscriber code listed below:

If wrestling app is needed, please visit Levelchanger.com to download app.

Transmitting Data to Either App

To operate the scale so that it automatically transmits data, follow these steps:

- Depress ON/ZERO to turn scale on.
- Depress TRANSMIT to enable wireless communication. The Wireless symbol  on the scale display will flash to indicate wireless mode is active.
- Turn on your device and click app icon. When successfully paired, the wireless symbol on the scale will become solid (not flashing). Now, each weight value over 26 lbs. will be automatically transmitted to the App (the scale display will momentarily blink to indicate successful transmission). *Note: the scale will remain on during the session to allow a continuous connection to the device.*
- When session has ended, depress TRANSMIT to disable wireless communication. The wireless symbol will no longer display.
- Wait for normal scale turn-off.

Football, Basketball, Rowing ... (Module BTM-415ST)

Sports Tracker
by Befour

NOTE: RUN ON ONE DEVICE ONLY.
Having the app open on two devices simultaneously might cause problems with the app.

Installation INSTRUCTIONS

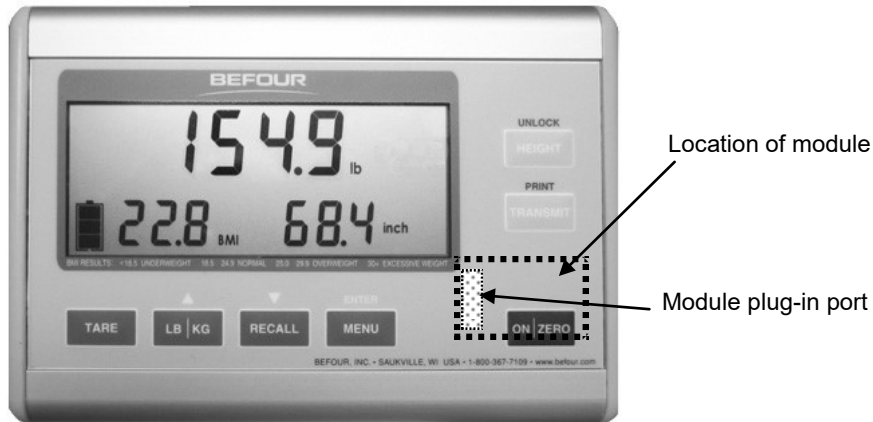

Before Installation

If you ordered the Bluetooth Smart module with a scale, it may be shipped to you already installed in the scale console. If already installed, you can skip to page 4. To check for factory installation, turn the scale console over and look for the Bluetooth Smart Ready label.

Installation of the Module

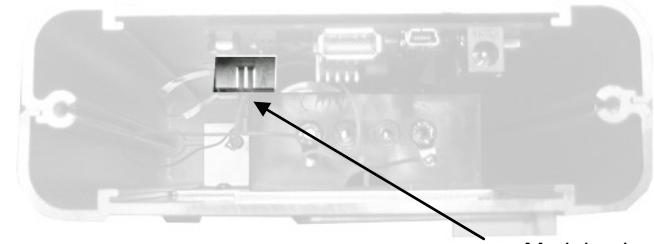

1. The module plugs into a port inside the console. Its approximate location is shown below. To access the port, the right endcap needs to be removed.

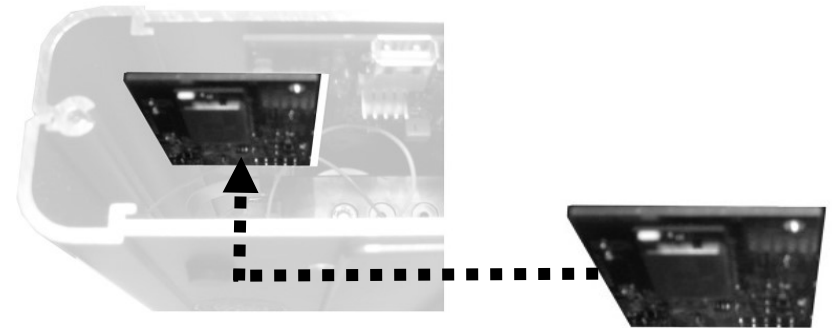

2. Remove the two screws on the right endcap. Gently pull the endcap off.

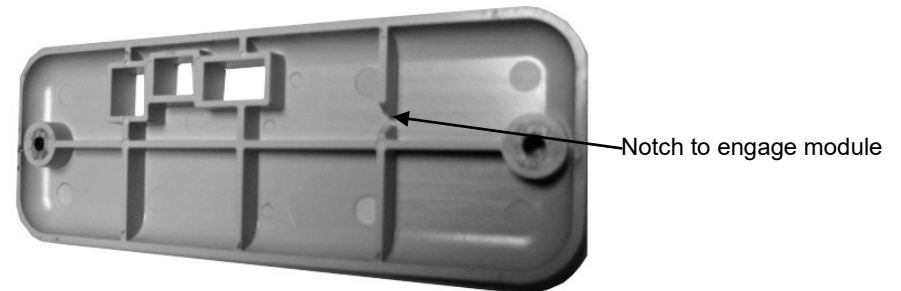

3. Locate the beige module port. Note that the port is recessed approximately 1" inside the console. (see photo in Step 1)

4. Position the module and plug in as shown below.

5. Re-attach the endcap. Note that it has a notch on the inside surface that helps hold the module in place.

6. Adhere the enclosed 'Bluetooth Smart Ready' silver label on the back of your console above the serial number label. Now you know your scale has Bluetooth.
